I do not know why a NEW BLOOD ORDER TEST ORDERED BY a DOCTOR here in CALIFORNIA would RESULT in this

as I Just Logged in -- Again - There is something Very Very Wrong Here! Those TESTS are from TEXAS -- and I WAS NOT PRESENT THERE IN TEXAS ON DEC 08 2021 -- I Left on NOVEMBER 1ST 2021 back to California. I am not going to press the tests - THESE TESTS WERE NEVER PERFORMED --- I HAD NO BLOOD TESTS DRAWN WHILE I WAS AT Canyon Creek Behavioral Health - No Blood Tests Were Ever Performed --

This is REV 1:

Something is SINISTER HERE! BE PREPARED FOR JUST ABOUT ANYTHING!

AND WHEN THEY CARRY ME AWAY - I WILL BE DEAD -- INSTEAD OF ALIVE - THEY ARE GOING TO MURDER ME!

cybermark

Except Here Only:

A cybermark is an open ended repetitive use of an observed, assigned, or [registered](#) unique symbolic code or simple language phrase of exact matching key that cannot be interpreted as a business logo or other commercial use trademark which could be purposefully placed into the content of digital materials across the entire freely [accessible](#) public worldwide web [domain](#) of [cyberspace](#) that is specifically used:

1) To [establish](#) a [linking](#) memplex of "works in common" to hold consideration of individual contributions from an open and unknown set of any single or multiple individual sources which these individuals could be either known or unknown to each other or if appropriate for the intended focus, these sources could be of anonymous sources.

[Definition Cut Here]

Example Usage:

The phrase "Teach Ignorance To See; or Grief To Smile" is an an observed expressed thought that historically appears in the [writings](#) and [documents](#) of many individuals relating to issues of morality and [ethics](#) for centuries.

The individuals do not appear to be related or known to each other.

As more of these documents become publicly visible onto the Internet, this phrase becomes an indentifiable cybermark that links all of the historical and current usage of these documents and these individuals together in an unified group that have found [unity](#) in a "common bond" by the repetitive expression of this cybermark ideal.

THE BLOOD ORDER TESTS WERE SUPPOSED TO BE FROM THE OFFICE VISIT IN POMONA ON JUNE 9TH ORDERED BY DOCTOR

WAS FROM THE OFFICE VISIT ON JUNE 9TH 2022, LABCORP BLOOD COLLECTED JUNE 15TH 2022 --

THE DOCTOR ON THIS ORDER COLLECTED ON JUNE 15TH 2022 WAS NOT THE DOCTOR THAT MY MOTHER AND I VISITED ON JUNE 9TH 2022 -- I DO NOT BELIEVE THEY HAVE 1 GOOGLE REVIEW. BUT THE TIME DELAY FROM APRIL 13 2022 TO JUNE 9TH 2022 -- THAT IS NOT RIGHT - NOT ALL RIGHT! SOMETHING IS WRONG HERE! MAJOR FAULT WRONG!

THE TEMPORARY PRIMARY CARE DOCTOR RICHARD KANGAH TO INFECTIOUS DISEASE DOCTOR MALOULE IS VALID FROM APRIL 13TH 2022 TO JULY 14TH 2022 -- WHEN I AM URGENTLY NEEDED TO GET MY HIV TREATMENT UNDERWAY -- THE REFERRAL FOR DOCTOR BASSI IN ALL OF THE DELAY FOR FOOTHILLS INFECTIOUS DISEASE HAD TO BE REISSUED BECAUSE IT HAD EXPIRED. I STILL HAVE NO HIV TEST PERFORMED AS OF THIS DATE JUNE 16TH 2022.

Surgeon Found Negligent In Patient Death

August 12, 2016 [In The News](#), [Trial Updates](#)

REDLANDS – Surgeon Richard Kangah was found negligent Monday in a wrongful death suit by the husband of a woman he operated on in May 2009.

Court documents said that Kangah, a general surgeon with Redlands Community Hospital and Beaver Medical Group, was “negligent in the diagnosis or treatment,” and his negligence was a “substantial factor in causing damage” to Dirk Hansen, whose wife Kathy died May 8, 2009, after undergoing surgery to remove part of her pancreas at Redlands Community Hospital. A unanimous jury awarded Dirk Hansen more than

\$4.4 million in damages.

Something Very Very Strange Here - These People Are Capable of Just About Anything!

Something Wicked This Way Done -- Something Wrong Here -- Extremely Wrong!

Dearest Most Appreciative Sirs of intelligence bright of LABCORP et all,

Can I first get a promise from you -- of a guaranteed RESPONSE here - UNCONDITIONALLY PROFESSIONAL and ignoring this would be UNCONDITIONALLY IRRESPONSIBLE AND UNPROFESSIONAL!

This is one to take hold of and to know, it might be best to take this to your board of directors. This is one of those exceptions to the rules and I am dying from the conditions that are in place.

The blood-drawn test results here are an indicator that my body is in a collapse of wellness -- Sir, I am dying from HIV when I should not be dying.

<https://patient.labcorp.com/portal/results/detail/3660474615>

James Driskill 03/23/2022 R KANGAH
Ultimate Medical Practice Inc 03/26/2022

CD4/CD8 Ratio TEST RESULT
0.38 -- WAY BELOW NORMAL RANGE
Low 0.92 TO HIGH 3.72

That is an EXTREME RESULT that when I finally got the RELEASE of the TEST RESULTS from my inquires -- Doctor Kangah never mentioned it himself. I was in their office without having any BLOOD RESULTS POSTED to the PATIENT SIDE of your information system tracking. You may indeed access this STORAGE LOCATION for the documentation on my inquiry -- seeking to know where my test results were located. I really think you all have seriously underestimated my capabilities in these regards. I think it would be wise to consider this a matter possible for a COURT PROCESS and if that is the case, I GUARANTEE YOU this statement applies to the FAULTS Here. Not even my mother and family dynamics will prevent me to add her to the LIST OF DEFENDANTS for reasons I know she holds in view of these circumstances. The entire situation here is EXTREME and COMPLEX but not unimaginable nor unfathomable to be more plausible to more than just possible. I understand what you are doing to me. My entire journal space in this regard started all of the ways back in June of 2005. Please do not insult my intelligence to the factors involved here are EXTREME - but I understand that EXTREME and I guarantee you -- for the doctors involved -- PERMANENT REVOCATION of LICENCING, your ROLE here LABCORP I am not yet sure, but a \$\$\$ settlement from \$1 to \$1 TRILLION Dollars would not prevent me from TERMINATING THIS MALPRACTICE -- the word PRACTICE relates possible human imperfections involved. That is not what we have here. This is not an accidental oversight. This is an INTENTIONAL SCHEME TO MURDER ME! That is EASY TO PROVE. This is one of those conditions that are not covered by ERRORS and OMISSION insurance people! Yes, I understand what is happening. I do not want a single dollar to a TRILLION dollars in a settlement! THAT IS NOT WHAT IS ON MY AGENDA! So, figure it out what you are going to do... I do not lie, cheat, or steal my way through life. I know what I know. and when I don't know, I say so. I know what is going on here. I know!

I know how to CONDUCT A REALITY AUDIT for these entire complex issues - and that is what we are doing -- from this aspect - not a single person, not even my mother is excluded from this obligation of moral responsibility - not a single person. Can we now understand how all of the interactions involved should be weighted to what is a NATURAL RESPONSE from anyone, and the exception from a NATURAL RESPONSE is noteworthy to the entire equation of PROOF BEYOND A REASONABLE DOUBT - as this is SELF-EVIDENT - I am serious! It is that!

Just keep it up and more and more and more and more documentation record of the foundational PRESSURE to hold me out of the "legal capacity" by violating the United States Code Title 18, Section 242 -- Deprivation of Rights Under Color of Law.

Just keep it up -- keep it up - do the opposite of what ought to be done as actions UNPROFESSIONAL are your being SLAVES to your PREDICTABILITY! This is DECADES BACK - NO MORE OF THIS - I CAN INDEED SEE THROUGH THIS INVISIBILITY - IT IS NOT HARD - NOT HARD TO CHART AND FLOW -- if that is where we end up going.

For there is indeed a HUGE VOLUME OF WORK PRODUCT I HAVE WRITTEN -- maintain for my mother -- that she continues to interfere with irrational thinking - she has an obligation she is not meeting the benchmark - She too is guilty of USC 18 242.

Labcorp, if you do not reply, I will know in the deepest of my hearts and minds that you are indeed involved in this criminal shitty thing that I have encountered!

Labcorp, if my blood that was drawn from my art in the appointment of 6/15/2022 at 1 pm -- as I arrived 2 minutes late and was placed on standby -- then as I just stated that you are indeed involved in this criminal shitty thing that I have encountered!

I have already a suspicion of such involvements mentioned in the history of why I had already created an online account for the blood work from Doctor Bassi, the prior HIV DOCTOR REFERRAL SELECTED and NO ORDER of HIV TEST GENOTYPE DRUG RESISTANCE DETAILS that should have been ordered - has been LOST to EACH AND EVERY ONE OF THESE HIV DOCTORS INVOLVED IN THE PRIMARY CARE DOCTOR TO REFERRAL PROCESS - EACH AND EVERY ONE OF THE IN VIEW LINE UP - CORRUPTED OF INTEGRITY -- SO EASY TO UNDERSTAND THE PROBABLE CAUSES -- NOT HARD TO EXPLAIN OR HARD TO MAP ONTO A CHART - NOT HARD AT ALL!

So you are attempting to claim there is nothing that you or anyone can recommend upward to find a "legal remedy" or any kind of application of the order to a process. A Never-ending forevermore cruel situation of detached responsibility of intentioned malpractice. Exactly -- I can comprehend the entire equation.

Do you want me to quote a source to consider?

Google: ["go fix some weighty truth" "physicians"]

https://www.google.com/search?tbm=bks&sxsrf=ALiCzsZRB-BWh-EYPAX6UcuOG__0TSLCg:1655364279109&q=%22go+fix+some+weighty+truth%22+%22physicians%22&spell=1

In a quick Scan, there are at least 60 entries. That is 6 pages of 10 matching results.

I am not kidding. Check yourself! The dates are in the video of their source. Prior to 1800 forward. No more of this - no more! No more of this game!

You need to read the passage: "Physicians ! more than half of thy disease"

Found inside -- Page 156

Go , fix some weighty truth ; Chain down some passion ; do some gen'rous good ; Teach ignorance to see , or grief to smile ; Correct thy friend ; befriend thy greatest foe ; Or with warm ... Physicians ! more than half of thy disease

PLEASE PLEASE PLEASE PEOPLE - GET OVER YOURSELVES - YOU WAY WAY UNDERESTIMATE THE DETAIL THAT I HAVE IN MY KNOWLEDGE.

In the laws that apply here, I can and I must indeed apply to have such contract "instruments" when indeed the conditions of a person's life are one of those exceptions that must be taken into full view. The accountability that of course -- we have always needed - at any one point in time, just sometimes one person's life circumstances do not fit into the standardized form-fitting rules.

OF COURSE, That is what it is to be an AMERICAN!

Anything or anyone that removes the pathway of the reaching upward to know I don't need an attorney to conduct this, I need those who are in the employment of the healthcare at my current detail, to realize it can't work-- especially as it is addressed upon me.

There will be and always will be those exceptions to the "standard rules" to which then begins a conversation of negotiations and agreements on how to adapt what are the needed "changes" to adapt onto identifying the barriers against my care.

For that is one remedy of consideration. It does not matter who I am or what it is that is interfering. If that I would represent a class of people more than 1, 100, or 100,000 or that what is interfering or barriers from care that such identified barrier would be single source or class of sources from more than 1, 100, 100,000 identifiable causes. You get my point. There is not a part of any form of LAW that allows or CONDEMNS a person to accept a set of circumstances that are UNCHANGEABLE, repeat UNCHANGEABLE that as UNCHANGEABLE is a pathway that is CAUSING HARM and in this case CAUSES FATAL OUTCOME of my life.

ONCE AGAIN, There is not a PART OF ANY FORM OF LAW THAT ALLOWS A CRIME TO BE COMMITTED that CAN'T BE ADDRESSED and IN THAT CAN'T BE ADDRESS CONDEMNS A PERSON TO AN UNOBTAINABLE SITUATION -- CONDEMNING A HUMAN LIFE TO DEATH!

SORRY - THAT CONDITION YOU SO SEEM TO THINK I HAVE TO JUST CONCEDE THAT FALSE STANDING and SIT DOWN AND SHUT THE FUCK UP - DOES NOT EXIST IN the COUNTRY OF OUR LAWS MAYBE IN SOME OTHER PLACE ON EARTH - BUT NOT IN THE UNITED STATES OF AMERICA!

My mother is the ISSUE that I can't seem to get her to REASON WITH. The idea or the notion that I have no powers to prevent my death when indeed, there is a CRIME HERE, and indeed your organization of "information systems" is being utilized by these factors of criminal activity, and the VICTIM here can not seem to obtain "Legal Capacity".

This is the issue here - you can not hold this to a situation that has no consulate to never address this and just allow me to die from a treatable disease that is not being treated -- but intentionally being subjected to a complete FAULT of doctor actions and orders to which are MALPRACTICE and the VICTIM HERE is telling this story and this story is holding VERIFIED PATIENT COMMUNICATIONS UP ONTO THE SO-CALLED RESPONSIBILITY UNDER AN HYPROCRATIC OATH OF DOCTOR MEDICAL PROVIDER CARE that is being INTENTIONALLY WILLFULLY IGNORED!

FOR A FIRST-TIME PRIMARY PROVIDER'S CARE DOCTOR REFFERAL TO AN HIV PROVIDER CARE DOCTOR APPOINTMENT SET UP FOR On June 9th, 2022 at 2 pm WHICH IN OF ITSELF HAS THE STRANGENESS OF PROCESSES OUTSIDE OF NORMAL ISSUANCE!

This RECORD of POSTING is a bit not final copy perfect spelling, one of those nights I could no longer continue as my focus had obviously been dysfunctional to the detrimental effect onto my writing style and needs. It is ok. When I am here in all true form, I am not making any money doing what I do - -so you get what I can produce to the quality of care -- I do what I do to the best of my ability at any one given time. This situation has produced a huge volume of details that I am not going to just drop - and I am not going to accept any criticisms for whatever presence of presentation - it is what it is. Take stride in knowing perhaps artificial intelligence will come through and correct this -- maybe years after I die. What I have written in all of this should scare no one of the good sides of life. In that view, what is written in bulk here might invoke a great tidal wake of social status quo disapproval.

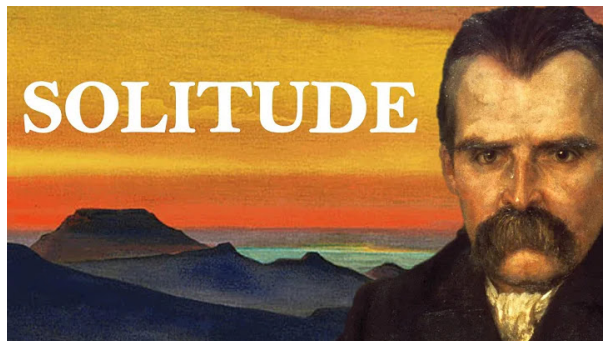

Written In 1968 - -

<http://www.tedkennedy.org/ownwords/event/eulogy.html>

Few are willing to brave the disapproval of their fellows, the censure of their colleagues, the wrath of their society. Moral courage is a rarer commodity than bravery in battle or great intelligence. Yet it is the one essential, vital quality for those who seek to change a world that yields most painfully to change. And I believe that in this generation those with the courage to enter the moral conflict will find themselves with companions in every corner of the globe.

Sorry, but you can not silence me out of all things -- just because you think it is ok to follow in line with abuse abuse abuse of my life presence.
FUCK YOU ALL HATERS!

I have ABSOLUTELY NO PROBLEM UNDERSTANDING WHO I AM! IT IS TIME TO RELEASE YOUR HATE - EVERYTHING FORWARD OF THIS SHOWS YOUR COMPLETE UNADULTERATED HATE AND HATE HATE HATE IS NOT GOING TO BE THE POPULAR RULE - IT IS NOT FOR THE TRUTH OF YOUR PROMISES ARE EMPTY -- EMPTY PROMISES -- FOR I ALSO KNOW I AM STARTING TO GET HITS THAT ARE REFLECTING AN AUDIENCE OF MORE THAN JUST ONE OF SELF!

Information Privacy in Cyberspace

Transactions

Jerry Kang*

Cyberspace is the rapidly growing network of computing and communication technologies that have profoundly altered our lives. We already carry out myriad social, economic, and political transactions through cyberspace, and, as the technology improves, so will their quality and quantity. But the very technology that enables these transactions also makes detailed, cumulative, invisible observation of our selves possible. The potential for wide-ranging surveillance of all our cyber-activities presents a serious threat to information privacy. To help readers grasp the nature of this threat, Professor Jerry Kang starts with a general primer on cyberspace privacy. He provides a clarifying structure of philosophical and technological terms, descriptions, and concepts that will help analyze any problem at the nexus of privacy and computing-communication technologies. In the second half of the article, he focuses sharply on the specific problem of personal data generated in cyberspace transactions. The private sector seeks to exploit this data commercially, primarily for database marketing, but many individuals resist. The dominant approach to solving this problem is to view personal information as a commodity that interested parties should contract for in the course of negotiating a cyberspace transaction. But this approach has so far failed to address a critical question: Which default rules should govern the flow of personal information when parties do not explicitly contract about privacy? On economic efficiency and human dignity

I do not know why a NEW BLOOD ORDER TEST ORDERED BY a DOCTOR here in CALIFORNIA would RESULT in this

as I Just Logged in -- Again - There is something Very Very Wrong Here! Those TESTS are from TEXAS -- and I WAS NOT PRESENT

THERE IN TEXAS ON DEC 08 2021 -- I Left on NOVEMBER 1ST 2021 back to California. I am not going to press the tests - THESE TESTS WERE NEVER PERFORMED --- I HAD NO BLOOD TESTS DRAWN WHILE I WAS AT Canyon Creek Behavioral Health - No Blood Tests Were Ever Performed -- This is REV 1:

cybermarkExcept Here Only:

A cybermark is an open ended repetitive use of an observed, assigned, or registered unique symbolic code or simple language phrase of exact matching key that cannot be interpreted as a business logo or other commercial use trademark which could be purposefully placed into the content of digital materials across the entire freely accessible public worldwide web domain of cyberspace that is specifically used:

1) To establish a linking memplex of "works in common" to hold consideration of individual contributions from an open and unknown set of any single or multiple individual sources which these individuals could be either known or unknown to each other or if appropriate for the intended focus, these sources could be of anonymous sources.

[Definition Cut Here]

Example Usage:

The phrase "Teach Ignorance To See; or Grief To Smile" is an observed expressed thought that historically appears in the writings and documents of many individuals relating to issues of morality and ethics for centuries.

The individuals do not appear to be related or known to each other.

As more of these documents become publicly visible onto the Internet, this phrase becomes an identifiable cybermark that links all of the historical and current usage of these documents and these individuals together in a unified group that have found unity in a "common bond" by the repetitive expression of this cybermark ideal.by In The Mindway December 28, 2006

THE DOCTOR ON THIS ORDER COLLECTED ON JUNE 15TH 2022 WAS NOT THE DOCTOR THAT MY MOTHER AND I VISITED ON JUNE 9TH 2022 -- I DO NOT BELIEVE THEY HAVE 1 GOOGLE REVIEW. BUT THE TIME DELAY FROM APRIL 13 2022 TO JUNE 9TH 2022 -- THAT IS NOT RIGHT - NOT ALL RIGHT! SOMETHING IS WRONG HERE! MAJOR FAULT

WRONG!

THE TEMPORARY PRIMARY CARE DOCTOR RICHARD KANGAH TO INFECTIOUS DISEASE DOCTOR MALOULE IS VALID FROM APRIL 13TH 2022 TO JULY 14TH 2022 -- WHEN I AM URGENTLY NEEDED TO GET MY HIV TREATMENT UNDERWAY -- THE REFERRAL FOR DOCTOR BASSI IN ALL OF THE DELAY FOR FOOTHILLS INFECTIOUS DISEASE HAD TO BE REISSUED BECAUSE IT HAD EXPIRED. I STILL HAVE NO HIV TEST PERFORMED AS OF THIS DATE JUNE 16TH 2022.

Surgeon Found Negligent In Patient Death August 12, 2016 In The News, Trial Updates REDLANDS – Surgeon Richard Kangah was found negligent Monday in a wrongful death suit by the husband of a woman he operated on in May 2009. Court documents said that Kangah, a general surgeon with Redlands Community Hospital and Beaver Medical Group, was “negligent in the diagnosis or treatment,” and his negligence was a “substantial factor in causing damage” to Dirk Hansen, whose wife Kathy died May 8, 2009, after undergoing surgery to remove part of her pancreas at Redlands Community Hospital. A unanimous jury awarded Dirk Hansen more than \$4.4 million in damages. [Read More Online]

Dearest Most Appreciative Sirs of intelligence bright of LABCORP et al,

Can I first get a promise from you -- of a guaranteed RESPONSE here - UNCONDITIONALLY PROFESSIONAL and ignoring this would be UNCONDITIONALLY IRRESPONSIBLE AND UNPROFESSIONAL!

This is one to take hold of and to know, it might be best to take this to your board of directors. This is one of those exceptions to the rules and I am dying from the conditions that are in place.

The blood-drawn test results here are an indicator that my body is in a collapse of wellness -- Sir, I am dying from HIV when I should not be dying.

CD4/CD8 Ratio TEST RESULT
0.38 -- WAY BELOW NORMAL RANGE
Low 0.92 TO HIGH 3.72

That is an EXTREME RESULT that when I finally got the RELEASE of the TEST RESULTS from my inquires -- Doctor Kangah never mentioned it himself. I was in their office without having any BLOOD RESULTS POSTED to the PATIENT SIDE of your information system tracking. You may indeed access this STORAGE LOCATION for the documentation on my inquiry -- seeking to know where my test results were located. I really think you all have seriously underestimated my capabilities in these regards. I think it would be wise to consider this a matter possible for a COURT PROCESS and if that is the case, I GUARANTEE YOU this statement applies to the FAULTS Here. Not even my mother and family dynamics will prevent me to add her to the LIST OF DEFENDANTS for reasons I know she holds in view of these circumstances. The entire situation here is EXTREME and COMPLEX but not unimaginable nor unfathomable to be more plausible to more than just possible. I understand what you are doing to me. My entire journal space in this regard started all of the ways back in June of 2005. Please do not insult my intelligence to the factors involved here are EXTREME - but I understand that EXTREME and I guarantee you -- for the doctors involved -- PERMANENT REVOCATION of LICENCING, your ROLE here LABCORP I am not yet sure, but a \$\$\$ settlement from \$1 to \$1 TRILLION Dollars would not prevent me from TERMINATING THIS MALPRACTICE -- the word PRACTICE relates possible human imperfections involved. That is not what we have here. This is not an accidental oversight. This is an INTENTIONAL SCHEME TO MURDER ME! That is EASY TO PROVE. This is one of those conditions that are not covered by ERRORS and OMISSION insurance people! Yes, I understand what is happening. I do not want a single dollar to a TRILLION dollars in a settlement! THAT IS NOT WHAT IS ON MY AGENDA! So, figure it out what you are going to do... I do not lie, cheat, or steal my way through life. I know what I know. and when I don't know, I say so. I know what is going on here. I know!

I know how to CONDUCT A REALITY AUDIT for these entire complex issues - and that is what we are doing -- from this aspect - not a single person, not even my mother is excluded from this obligation of moral responsibility - not a single person. Can we now understand how all of the interactions involved should be weighted to what is a NATURAL RESPONSE from anyone, and the exception from a NATURAL RESPONSE is noteworthy to the entire equation of PROOF BEYOND A REASONABLE DOUBT - as this is SELF-EVIDENT - I am serious! It is that!

Just keep it up and more and more and more and more documentation record of the foundational PRESSURE to hold me out of the "legal capacity" by violating the United States Code Title 18, Section 242 -- Deprivation of Rights Under Color of Law.

Just keep it up -- keep it up - do the opposite of what ought to be done as actions UNPROFESSIONAL are your being SLAVES to your PREDICTABILITY! This is DECADES BACK - NO MORE OF THIS - I CAN INDEED SEE THROUGH THIS INVISIBILITY - IT IS NOT HARD - NOT HARD TO CHART AND FLOW -- if that is where we end up going.

For there is indeed a HUGE VOLUME OF WORK PRODUCT I HAVE WRITTEN -- maintain for my mother -- that she continues to interfere with irrational thinking - she has an obligation she is not meeting the benchmark - She too is guilty of USC 18 242.

Labcorp, if you do not reply, I will know in the deepest of my hearts and minds that you are indeed involved in this criminal shitty thing that I have encountered!

Labcorp, if my blood that was drawn from my art in the appointment of 6/15/2022 at 1 pm -- as I arrived 2 minutes late and was placed on standby -- then as I just stated that you are indeed involved in this criminal shitty thing that I have encountered!

I have already a suspicion of such involvements mentioned in the history of why I had already created an online account for the blood work from Doctor Bassi, the prior HIV DOCTOR REFERRAL SELECTED and NO ORDER of HIV TEST GENOTYPE DRUG RESISTANCE DETAILS that should have been ordered - has been LOST to EACH AND EVERY ONE OF THESE HIV DOCTORS INVOLVED IN THE PRIMARY CARE DOCTOR TO REFERRAL PROCESS - EACH AND EVERY ONE OF THE IN VIEW LINE UP - CORRUPTED OF INTEGRITY -- SO EASY TO UNDERSTAND THE PROBABLE CAUSES -- NOT HARD TO EXPLAIN OR HARD TO MAP ONTO A CHART - NOT HARD AT ALL!

So you are attempting to claim there is nothing that you or anyone can recommend upward to find a "legal remedy" or any kind of application of the order to a process. A Never-ending forevermore cruel situation of detached responsibility of intentioned malpractice. Exactly -- I can comprehend the entire equation.

Do you want me to quote a source to consider?

Google: ["go fix some weighty truth" "physicians"]

https://www.google.com/search?tbm=bks&sxsr=ALiCzsZRB-BWh-EYPAX6UcuoOG__0TSLCg:1655364279109&q=%22go+fix+some+weighty+truth%22+%22physicians%22&spell=1

In a quick Scan, there are at least 60 entries. That is 6 pages of 10 matching results. I am not kidding. Check yourself! The dates are in the video of their source. Prior to 1800 forward. No more of this - no more! No more of this game!

You need to read the passage: "Physicians ! more than half of thy disease"

Found inside – Page 156

Go , fix some weighty truth ; Chain down some passion ; do some gen'rous good ; Teach ignorance to see , or grief to smile ; Correct thy friend ; befriend thy greatest foe ; Or with warm ... Physicians ! more than half of thy disease

PLEASE PLEASE PLEASE PEOPLE - GET OVER YOURSELVES - YOU WAY WAY UNDERESTIMATE THE DETAIL THAT I HAVE IN MY KNOWLEDGE.

In the laws that apply here, I can and I must indeed apply to have such contract "instruments" when indeed the conditions of a person's life are one of those exceptions that must be taken into full view. The accountability that of course -- we have always needed - at any one point in time, just sometimes one person's life circumstances do not fit into the standardized form-fitting rules.

OF COURSE, That is what it is to be an AMERICAN!

Anything or anyone that removes the pathway of the reaching upward to know I don't need an attorney to conduct this, I need those who are in the employment of the healthcare at my current detail, to realize it can't work-- especially as it is addressed upon me.

There will be and always will be those exceptions to the "standard rules" to which then begins a conversation of negotiations and agreements on how to adapt what are the needed "changes" to adapt onto identifying the barriers against my care.

For that is one remedy of consideration. It does not matter who I am or what it is that is interfering. If that I would represent a class of people more than 1, 100, or 100,000 or that what is interfering or barriers from care that such identified barrier would be single source or class of sources from more than 1, 100, 100,000 identifiable causes. You get my point. There is not a part of any form of LAW that allows or CONDEMNS a person to accept a set of circumstances that are UNCHANGEABLE, repeat UNCHANGEABLE that as UNCHANGEABLE is a pathway that is CAUSING HARM and in this case CAUSES FATAL OUTCOME of my life.

ONCE AGAIN, There is not a PART OF ANY FORM OF LAW THAT ALLOWS A CRIME TO BE COMMITTED that CAN'T BE ADDRESSED and IN THAT CAN'T BE ADDRESS CONDEMNS A PERSON TO AN UNOBTAINABLE SITUATION -- CONDEMNING A HUMAN LIFE TO DEATH!

SORRY - THAT CONDITION YOU SO SEEM TO THINK I HAVE TO JUST CONCEDE THAT FALSE STANDING and SIT DOWN AND SHUT THE FUCK UP - DOES NOT EXIST IN the COUNTRY OF OUR LAWS MAYBE IN SOME OTHER PLACE ON EARTH - BUT NOT IN THE UNITED STATES OF AMERICA!

My mother is the ISSUE that I can't seem to get her to REASON WITH. The idea or the notion that I have no powers to prevent my death when indeed, there is a CRIME HERE, and indeed your organization of "information systems" is being utilized by these factors of criminal activity, and the VICTIM here can not seem to obtain "Legal Capacity".

This is the issue here - you can not hold this to a situation that has no consulate to never address this and just allow me to die from a treatable disease that is not being treated -- but intentionally being subjected to a complete FAULT of doctor actions and orders to which are MALPRACTICE and the VICTIM HERE is telling this story and this story is holding VERIFIED PATIENT COMMUNICATIONS UP ONTO THE SO-CALLED RESPONSIBILITY UNDER AN HYPROCRATIC OATH OF DOCTOR MEDICAL PROVIDER CARE that is being INTENTIONALLY WILLFULLY IGNORED!

FOR A FIRST-TIME PRIMARY PROVIDER'S CARE DOCTOR REFFERAL TO AN HIV PROVIDER CARE DOCTOR APPOINTMENT SET UP FOR On June 9th, 2022 at 2 pm WHICH IN OF ITSELF HAS THE STRANGENESS OF PROCESSES OUTSIDE OF NORMAL ISSUANCE!

This RECORD of POSTING is a bit not final copy perfect spelling, one of those nights I could no longer continue as my focus had obviously been dysfunctional to the detrimental effect onto my writing style and needs. It is ok. When I am here in all true form, I am not making any money doing what I do - -so you get what I can produce to the quality of care -- I do what I do to the best of my ability at any one given time. This situation has produced a huge volume of details that I am not going to just drop - and I am not going to accept any criticisms for whatever presence of presentation - it is what it is. Take stride in knowing perhaps artificial intelligence will come through and correct this -- maybe years after I die. What I have written in all of this should scare no one of the good sides of life. In that view, what is written in bulk here might invoke a great tidal wake of social status quo disapproval.

Few are willing to brave the disapproval of their fellows, the censure of their colleagues, the wrath of their society. Moral courage is a rarer commodity than bravery in battle or great intelligence. Yet it is the one essential, vital quality for those who seek to change a world that yields most painfully to change. And I believe that in this generation those with the courage to enter the moral conflict will find themselves with companions in every corner of the globe.

Sorry, but you can not silence me out of all things -- just because you think it is ok to follow in line with abuse abuse abuse of my life presence.

FUCK YOU ALL HATERS!

Information Privacy in Cyberspace

Transactions

Jerry Kang*

Cyberspace is the rapidly growing network of computing and communication technologies that have profoundly altered our lives. We already carry out myriad social, economic, and political transactions through cyberspace, and, as the technology improves, so will their quality and quantity. But the very technology that enables these transactions also makes detailed, cumulative, invisible observation of our selves possible. The potential for wide-ranging surveillance of all our cyber-activities presents a serious threat to information privacy. To help readers grasp the nature of this threat, Professor Jerry Kang starts with a general primer on cyberspace privacy. He provides a clarifying structure of philosophical and technological terms, descriptions, and concepts that will help analyze any problem at the nexus of privacy and computing-communication technologies. In the second half of the article, he focuses sharply on the specific problem of personal data generated in cyberspace transactions. The private sector seeks to exploit this data commercially, primarily for database marketing, but many individuals resist. The dominant approach to solving this problem is to view personal information as a commodity that interested parties should contract for in the course of negotiating a cyberspace transaction. But this approach has so far failed to address a critical question: Which default rules should govern the flow of personal information when parties do not explicitly contract about privacy?
