Subject: Really -- CDC - Disability Inclusion -- The Law

I do not know how to assess what has happened yet -- I need to know if my mother has actually been in contact with your office, as I asked her help -- she is beyond help and what has happened is extreme -- she need to have someone take care of her inability to see the needs of her son - over her needs to psychologically abuse me.

She needs to have mental health assessment - and it my request of help here -- for sure -- that is at the hands of all that I can do -- typing -- letter to letter... will you be my doctor or not?

For all of my needs -- I come with this ability and that ability taken into view of the CDC article -- disability inclusion --

THE TIME IS NOW - NOT TOMORROW -- I WILL BE CONTACTING THE OFFICE OF THE ROCK BIBLE COLLEGE only to confirm the receipt and the need for courier transition of crossposting -- into your care -- confirmed.

I am not going to accept any less standard than the level of EXCELLENCE!

I am way way over my page per month quota -- I think it resets tomorrow.

Do you see that I am connecting to DARPA -- for that which I know I hold the view of knowledge that is indeed part of the social media construct that we are working to the destruction of our society... I really question the need to have a doctor in my view that I know is acting - or just thinking - in terms of something wrong that can not continue.

Someone has to be of the role -- to which it is said in that article.

This is a part of EVERYONE's RESPONSIBILITY -- and does not fall upon a single person like I am -- to have to beg for it -- I will not beg for it- if it is not given naturally -- something is wrong with you - I don't want to know you --- I want nothing to do with you. I think that if you reject that notice, you are something sinister and evil!

What is Disability Inclusion?
Including people with disabilities in everyday activities and encouraging

them to have roles similar to their peers who do not have a disability is disability inclusion. This involves more than simply encouraging people; it requires making sure that adequate policies and practices are in effect in a community or organization.

Inclusion should lead to increased participation in socially expected life roles and activities—such as being a student, worker, friend, community member, patient, spouse, partner, or parent.

Socially expected activities may also include engaging in social activities, using public resources such as transportation and libraries, moving about within communities, receiving adequate health care, having relationships, and enjoying other day-to-day activities.

Disability Inclusion and the Health of People with Disabilities

Disability inclusion allows for people with disabilities to take advantage of the benefits of the same health promotion and prevention activities experienced by people who do not have a disability. Examples of these activities include:

Education and counselling programs that promote physical activity, improve nutrition or reduce the use of tobacco, alcohol or drugs; and

Blood pressure and cholesterol assessment during annual health exams, and screening for illnesses such as cancer, diabetes, and heart disease.

Including people with disabilities in these activities begins with identifying and eliminating barriers to their participation.

There is a NEED HERE to use this FEATURE -- and if you get the REASONING -- I HAVE THE REASONING of NEED for the ALLOWANCE of this process -- and no one is going to change that -- unless they give me my rights of disability inclusion. The style of use of crossposting as I recently shared, went out around the year 1999. It is part of the Y2K issue in view of fixing some orientation of coding.

Crossposting is the act of posting the same message to multiple

information channels; forums, mailing lists, or newsgroups. This is distinct from multiposting, which is the posting of separate identical messages, individually, to each channel, (a forum, a newsgroup, an email list, or topic area). Enforcement actions against crossposting individuals vary from simple admonishments up to total lifetime bans. In some cases, on email lists and forums, an individual is put under a Stealth Ban where their posts are distributed back to them as if they were being distributed normally, but the rest of the subscribers are not sent the messages. This is easily detected if the Stealthed individual has two different, and totally non-associated identities in the channel, such that the non-stealthed identity will see a different set of messages, lacking the posts of the stealthed individual, in their view of the channel.[1][2][3]

But then again, here it is, I must use it for this purpose and all one has to do is come to the rational reasoning and enable disability inclusion upon me. END OF THE TROUBLEMAKING - I am not making trouble - but in the view that you see to DARPA -- My LinkedIn account was suspended - I know my net wise -- and so should you.
